Mills

TRE SPADE pepper and salt mills are made from traditional Italian products from PEFC-certified beech wood, guaranteeing correct and sustainable wood and forest management through rigorous environmental, social and economic standards.

The pepper mill mechanisms are made with:

- TRE SPADE conic mechanisms of special tempered steel with mechanically produced precision teeth, and come with a 25-year guarantee
- Steel shaft with anti-rust surface coating

The salt mill mechanisms are made with:

- TRE SPADE conic ceramic mills made in Italy
- Aluminum shaft

HISTORY OF TRE SPADE

Tre Spade, founded in 1894, has always been a family business with a strong dedication to handcrafted production with its roots in the green hills of Canavese, a small region North of Turin, Italy. Tre Spade has a long tradition of quality.

While initially only producing hot-forged tools, the company began making coffee grinders soon afterwards, which quickly grew into their main business. It acquired market leadership and has maintained that position for over seventy years.

In the 1920's the company started producing pepper mills - both the inner mechanism (the heart of the object) and the wooden body.

KNIVES & CUTLERY 04

Boning Knives

*All Knife Widths Are Approximate

The blade of a boning knife is thin and short, it is made to slip easily between the flesh and bone while cutting. Proper use of a boning knife allows you to quickly de-bone meat and increase your yield while reducing waste.

Breaking & Trimming Knives

*All Knife Widths Are Approximate

Trimming knives are excellent for breaking apart cured ham, as well as other meats. The curved blade allows the knife to slide into the meat with ease. It is designed for removing fat from various cuts of meat.

Cleavers

*All Knife Widths Are Approximate

Cleavers are capable of chopping meat with small thin bones and cartilage. However, cleavers are not meant for cutting through thick, hard bones – instead, it is recommended that you use a band saw, or a manual bone handsaw, or you may risk damaging the cleaver. Chinese style cleavers are light and agile enough to be used for a wider range of tasks such as vegetable slicing, but are less suitable for bone chopping.

The all new

pacojet

Experience meets innovation. Redefine classic preparation methods and elevate market-fresh ingredients into culinary masterpieces.

Find out more about the product on Trento

<https://trentoequipment.com/>

For sorbets, ice creams, farces, mouses, soups, concentrates, doughs, mixtures and much more!

Since 1951, Omcan has delivered quality products and services to the food service industry. Today, we continue to expand our portfolio and foot print to offer new products, to help every kitchen store, prepare, cook and serve.

We are very excited to present you with our new catalog. In it you will find over 1,000 more industry leading products, larger and more detailed photos, expanded product descriptions, and more detailed product specifications.
