Installation

TRANSPORTING THE APPLIANCE

The meat grinder leaves our warehouse carefully packed; packaging consists in:

- This manual
- Food tray.
- Pestle.

CHECKING PACKAGING UPON CONSIGNMENT

When the goods are received proceed with opening the packaging if there are no signs of damage, and make sure that inside all the items are included. If when the goods are delivered there are signs of damage to the packaging, agent or courier, and within three days from the date indicated on the documents draw up a detailed

Installation

list and report of all damage to the goods. Do not turn the packed goods upside down! When transporting the package make sure its four main points are firmly secured (maintain the goods parallel to the ground).

DISPOSING OF PACKAGING

The various items used for packaging (cardboard, pallets, plastic straps, polyurethane foam) are normal urban waste products and can be disposed of without difficulty. If the appliance is destined to countries where are specific standards regarding waste, dispose of packaging respecting the standards and laws in force.

INSTALLING THE APPLIANCE

APPLIANCE LOCATION

The work surface where the meat grinder will be located must be suitable for the size of the appliance. The work surface must be level and dry and at a height of 80 cm from the ground. The appliance must be located in a non-salty environment with a max humidity value of 75% and with a temperature between 5°C and 35°C; and however, always in areas and environments that do not cause any type of malfunction to the appliance.

CONNECTION TO THE ELECTRICITY SUPPLY

The meat grinder comes supplied with a 3x1mm² long power cable. Connect the meat grinder to a 110-120V / 60Hz power supply; at this point makes sure the main ground circuit functions correctly. Also check that the information given on the technical data and serial number plate corresponds to the information given in this manual.
