Built for high-volume doughs, batters and whipped toppings, day after day.

These heavy-duty planetary mixers combine a 3-speed, gear-driven transmission with heat-treated alloy gears and shafts for high-torque, dependable mixing. Five bowl sizes from 20 to 80 qt cover everything from a busy café to a full production bakery, and the high-speed setting gets batches done quickly.

Front-mounted controls with a 30-minute digital timer keep operation simple. A stainless steel bowl guard keeps foreign objects out of the bowl while the mixer runs, and safety interlocks and overload protection come standard. Every unit ships with a stainless steel bowl, flat beater, wire whip and dough hook.
