Professional Performance & Precision Baking

Designed for demanding professional use, the FRV Series features refractory construction and high-efficiency insulation for excellent heat retention, reduced energy consumption, and consistent baking performance. Three programmable cooking programs and a touchscreen control make repeated baking simple, precise, and efficient.

FEATURES:

- **Rotating Deck:** 100 cm rotating deck for even cooking
- **Compact Design:** Ergonomic design minimizes overall size
- **Even Cooking:** Forced ventilation and deck rotation ensure uniform baking
- **Independent Heating:** Separate dome and deck heating systems
- **PID Control:** Precise, consistent temperature management
- **Heat Retention:** Refractory construction provides excellent thermal stability
- **Thermal Insulation:** High-efficiency insulation reduces heat loss
- **Power Adjustment:** Independent dome and deck power control
- **Cooking Programs:** 3 programmable baking programs
- **Deck Rotation:** 20 speed settings with reversible direction
- **Delayed Start:** Programmable timed power-on
