

Standard Work Tables & Accessories

Keep your busy kitchen running smoothly with durable, long-lasting support.

Omcan's Stainless Steel Work Table with Galvanized Legs and Undershef is designed for durability, and functionality in any commercial kitchen. Made from 18-gauge 430 stainless steel, the table's top surface offers a sturdy, easy-to-clean workspace, ideal for food prep and various kitchen tasks. A built-in backsplash helps maintain a clean environment by preventing spills and debris from falling behind. Support channels beneath the table are secured using bolt and acorn-style nuts, adding extra strength.

The galvanized undershef is reinforced with welded V pipe leg supports, for added stability and storage. Each leg is secured with a single set-screw design, for a tight and steady fit. Plastic bullet feet allow for easy leveling on uneven floors, helping maintain balance and prevent movement during use. Built for busy kitchens, this worktable delivers strong, long-lasting performance with practical design features.

FEATURES:

- Bolt-secured support channels with acorn nuts
- Undershef with welded V-pipe supports
- Legs secured with single set-screw
- Plastic bullet feet
